The Perfect Failsafe Voting System.

The EVC CARD (EVERY VOTE COUNTS) **Smart Chip SS Voter ID Card.**

THOU SHALT NOT BEAR FALSE WITNESS.

The Perfect Democratic Voting System would be safe, secure, easy to use, fraud proof and take place only on Election Day or During Election Week. This system of voting *would not require* any type of paper or machine ballots, mail in, or absentee.

This system was conceived and written by a very concerned American for the betterment of all citizens of the United States. This is a world changing idea and solution for perfecting our Voting system *once and for all.* Its purpose is to be so easy and practical to use it will ensure every legal vote truly counts and it will save billions $$$ by eliminating ALL archaic and different types of voting machines, systems and manpower, with no more slow and tedious counting of ballots over days or weeks.

One National System with no individual state or county incongruity. No machine software error mischief, ballet stuffing or harvesting frauds are even possible. No need for extending vote counting. Early voting limited to 1 week.

No mail-in voting so no comparison of signatures or postal mark dates are necessary if ever done at all. *All nationwide states and county votes are tabulated live* as they are cast showing all running totals making election day very exciting to see, participate in, and televise. The calling of the election results would be at midnight the election day voting deadline as it should be. The national electoral college could even be tallied automatically. Every vote is precisely recorded, who cast it, where and when they voted without any error. The heart of the system and the main reason for its success, will be a new *Enhanced* Social Security / Voter ID Card. I named it the EVC Card (Every Vote Counts) and it will not allow any type of fraud and can only be used once for voting during election week. One system, one card, one vote. GUARANTEED. Democrats always say every vote should count so they should be very happy about this new system don't you think? If not, I wonder WHY? Maybe because all those illegal aliens being invited into our country won't be able to vote!!! This will be a no brainer for Republicans. *And a powerful incentive for legal immigration.*

The EVC Card will be programmable each election cycle with Social Security # ID Card Reader / Writers similar to credit card terminals. They can easily be custom produced for convenient access at common locations nationwide. *For example, Get a Big Mac / Cast Your Vote.* They can also be available outside the country as well.

Better yet, overseas voters and the disabled can get Electronic EVC Cards. When it's time to vote, insert your card, read the individual candidates platforms if you wish, check your choices, preview, then click the Vote Button. Your votes are now cast instantly and your card automatically records and uploads your votes, then deactivates the cards chip to prevent multiple votes. *One Card One Vote One System. Nationwide terminals are all tied into the election mainframe servers* during *election week with read only media feeds out to the press.*

Registering to get your EVC Voter ID Card would only require proof of a valid social security card and proof of your voting age. You can even register to vote at terminals that feature that capability. These smart terminals will replace voting machines, all forms of paper ballots and will be available everywhere. That is what truly makes the system totally FAILSAFE. *If you don't have a social security card, you are not a US citizen* and you can not get the EVC Card. No Card NO VOTE, Period. Every US citizen is *entitled to receive* a EVC SS ID Card Free.

This enlightened voting system needs to be created NOW and implemented by 2024 so we don't repeat past election fiascos. The best thing we can do now is to start promoting this system to the politicians and citizens. *Then no one party or group will ever be able to manipulate or rig the election system again. AMEN.*

Unfortunately stopping any corrupt media bios from breaking the 9th commandment, Thou shalt not bear false witness and censorship is another matter.

The Real Reason Donald Trump and Mitt Romney were beaten, was not by some illegitimate voter fraud but by 4 years of anti Trump propaganda. That is what deceived a lot of good people that were *programmed to vote* AGAINST Trump, NOT FOR Joe Biden. ***They will try to do it again unless we stop them.*** *This system WILL do just that!* The corona virus gave them an excuse to have *hundreds of election days* to get out the media's pre-programmed masses. That's the root cause of the take down of President Trump. If this system were in place then, Trump would have won. His error was hoping for a big one day voting turnout, it was not enough. *Without this system in place, Election Week voting will only be possible with the EVC Card Voting System.* Now that I live in Florida under the great leadership of Ron Desantis and Marco Rubio, I have a feeling that Florida could be first to adopt this system. I Pray we have the wisdom to get behind these historic improvements to the election process once and for all!

God Bless You and the USA.
